$ cat README.md

I build modern web applications with TypeScript, React.js and Node.js, with a constant focus on clean, maintainable and scalable architecture. I specialise in developer tooling — CI/CD pipelines, CLIs and automation that remove friction across the development lifecycle — and I'm growing within the SAP ecosystem to ship software that creates real business value.

$ git log --graph --author="dcdavidev"

a7c3e91 **(HEAD → main)** 2026-11 → present

feat(regesta): SAP Developer Intern

Regesta Group · Brescia

Building modern enterprise solutions within the SAP ecosystem, with a focus on clean, maintainable code that delivers real business value.

3f1b8d2 **(freelance)** 2026-01 → present

feat(hr-meccatronica): Full Stack & DevOps Engineer

HR meccatronica Srls · Brescia · freelance

Led the cloud migration to managed services, database optimisation and email deliverability setup. Upgraded the application stack, refactored code to modern standards and standardised containerised environments. Ran architectural audits, cost/feasibility analyses and GDPR alignment of the infrastructure.

e94d0a6 2023-04 → 2024-07

feat(skeingear): Junior Fullstack Web Developer

Skeingear · Villanuova sul Clisi (BS)

Developed full-stack web applications across the whole lifecycle, from development to production delivery. Built features in React, TypeScript, Node.js and PHP; set up and maintained CI/CD pipelines and deployment processes.

5d2e7f0 2016-03 → 2025-06

build(la-rapida): Artisan

La Rapida di Davide Di Criscito · Mazzano (BS)

Repair and restoration of footwear and leather goods, personalised customer consultation, sales and inventory. Ran daily workflow, accounting and warehouse operations with artisanal precision and quality.

b08c4a1 2013-06 → 2013-11

chore(retail): Sales Assistant

ZARA · H&M · Terranova Style — Milan, Florence

Stock control and replenishment, visual merchandising, point-of-sale and in-store customer support.
